October 23, 2003

Questions On

Solicitation for Instructional Support for Interservice Space Fundamentals Training
(Solicitation # N00178-04-R-1008)

1. Para C.1.1: Can the government provide representative locations for the mobile courses so that we can accurately estimate associated travel costs?

In the past Mobile classes have been held at Colorado Springs, CO; Kirkland AFB, NM; Knoxville, TN; Anchorage, AK and Montgomery, AL

NO TRAVEL COSTS are to be added into this contract. Mobile courses are at the request of an inviting activity. The inviting activity will pay all travel cost under a different contract/purchase order. This contract will only provide for the instructor and corresponding classroom reports (CLIN 0004).

2. Note under Para C.1.3: In the second sentence, we assume this should be 32 hours per Mobile course vice 32 hours per year. Is this correct? Lastly, we assume that in addition to the 160 hours per year, we should add 16 hours of labor for travel days per course. Is this correct?

Yes, 32 hours per course with a maximum of 160 hours per year if all 5 courses are scheduled.

NO TRAVEL COSTS are to be added into this contract. See response to question #1.

3. Para C.2: This paragraph refers to the contractor instructor. Can we assume this means 1 Full Time Equivalent (FTE) for this contract? This appears to be in conflict with Para C.4, i.e., "all new instructors..".

In accordance with page 9, the solicitation requires the submission of 1 resume for the instructor. The Government will not mandate to the contractor personnel status as to full time employee or not.

Paragraph C.4 addresses if the current instructor resigns then a new instructor is to monitor the class before performing instruction.

4. Para C.2.1: Can the government provide an estimate for the anticipated number of hours per year for this requirement?

Refer to the following paragraphs of the Statement of Work for anticipated hours: C.1.3 Note; C.1.4; C.1.5; C.2; C.2.2; C.3; C.5 and C.5.3

5. Para C.2 through Para C.2.2: should we assume approximately 66% of the costs for this requirement should fall under CLIN 0001 and 34% of the pricing should fall under CLIN 0003? This is based on 2/3 of the annual number of courses being regular courses (CLIN 0001 and 1/3 being Mobile (CLIN 0003).

CLIN's 0001 and 0003 list the maximum number of classes. In addition there are hours associated with CLIN's 0005,0006, and 0007.

6. Para C.3: Can we assume that the one Training Review encompasses both the Regular and the Mobile Course. Where is this review held.

The review covers the course material, the Mobile Course is a condensed version of the Regular Course. The review is held in Colorado Springs there is NO travel required.

7. Para C.4: How will the new contractor instructor be able to monitor a course (i.e., not teach) when it appears the contract will require that he/she teach in all scheduled regular and mobile courses?

Only upon the current instructors resignation will the newly appointed instructor monitor a Regular Class.

8. Para C.5: Should we assume this "every other year" requirement will be done 2x or 3x over the course of the 5 year contract? What does the government envision as the "contractor provided resources" for this requirement?

The C.5 requirement is scheduled for 2005 and 2007.

"contractor provided resources" equal the research information gathered as required by C.5.

9. Para C.5.1 & C.5.2: Does the hours estimate in C.5 include the accomplishment of these 2 requirements?

Yes

10. 52.212-2 (a)(1), Personal Computers/Software: Does the government anticipate any requirement for more than 1 set of contractor furnished Personal Computer/Software at the government facility? Will this contractor furnished computer be connected to the government LAN?

The Government only anticipates 1 contractor furnished Personal Computer/Software at the facility. The contractor will not be connected to the LAN.

11. General: Can the government provide the current contractor level of support for this training requirement, and the name of the incumbent company?

The incumbent company is Northern NEF of Colorado Springs, CO.

The previous support was as follows:

<i>CLIN 0001</i>	<i>Regular Classes</i>	<i>53</i>
<i>CLIN 0002</i>	<i>Mobile Classes</i>	<i>5</i>
<i>CLIN 0005</i>	<i>ISF Course Review</i>	<i>1</i>
<i>CLIN 0006</i>	<i>Monitor ISF Course</i>	<i>1</i>
<i>CLIN 0007</i>	<i>Update Course</i>	<i>4 (Anticipate only in 2005 and 2007)</i>

12. Will there be any calendar overlap of the regular courses with the mobile courses, or will the schedule be deconflicted so the 2 are not being conducted at the same time?

Regular Classes and Mobile Classes are not anticipated to take place at the same time.

13. We are assuming that on CLIN 2 and CLIN 4, the government does not want these requirements (as specified in Section C of the work statement) priced at all, either separately or included within the pricing for CLINs 1 and 3 respectively. Is this correct?

Prices of CLIN's 0001 and 0003 should include the Data Requirements included in CLIN's 0002 and 0004.
